MINING, BUSINESS AND STOCKS.

GOLDEN REEF WILL SOON BE SHIPPING

Company Has Over 100 Tous on the Dump Ready to Send to the Smelter.

Developments at the Golden Reef property in the Beaver mining district are such that the officers now feel certain that they will, with more work, open up a paying mine. Already the company has 100 tens of ore out on the dump ready for shipment. This ore is of a good shipping quality and contains an average of \$30 in gold and excellent lead values, according to Thomas Fountain of Ephraim, freasurer of the com-

This morning Mr. Fountain declared that the property is in excellent shape and work is being pushed ahead. Already 3,500 feet of development work has been done, including tunnels, winhas been done, including tunnels, worzes, shafts, up alses and crosscutts. The property has been worked for eight years, but as the work has been put through slowly it has not been as fully developed as many other properties.

Mr. Fountain says that the main

Mr. Foundam says that the many working shaft on the property is 225 feet deep and that it is the intention to extend the shaft 25 feet more before crosscutting the third level. There seems to be little doubt but what some excellent ore will also be opened up on this level.

excellent ore will also be opened up on this level.

Two bodies of ore have aleady been opened up. One of these is on the first level, while the other is on the second level. Both of these are proving up some excellent gold and lead ore.

The company is capitalized for \$100,-000, with shares at 20 cents each. Of the treasury stock 25,000 shares still remain in the treasury to be used for development purposes. The company owns 27 claims in the district. The mine is six miles from a railroad.

Most of the people interested in the company come from Ephraim, while considerable of the stock is held around Salt Lake City. It is understood that

Sait Lake City. It is understood that several flattering offers have been made for the property, but the stockholders assert they intend to hold it and make a mine out of it themselves.

STOCKS SHOW LITTLE CHANGE. Prices Remain Fairly Steady on the Local Mining Exchange,

Conditions on the local stock exchange were slow again today, while the margin of changes in prices was slight. East Tintic Development which has been opening into a much richer property each day was down to 14 cents today and 3,000 shares of the stock went at 13½ cents. Grand Central was the only stock that fell to any extent. The stock opened at 2.52½ and closed weak at \$2.45. The support which this stock has received in the past was lacking today.

Yankee Consolidated reached the lowest price at which it has sold this Conditions by the local stock ex-.

Emerson Heights

BED OF SALTPETER

J. W. Manwill and George Schougaard Discover Deposit in Greenwich canyon Which They Believe Rich.

Another bed of salpeter has been found in Greenwich canyon, Sevier county, that is believed to be a higher quality than any heretofore discovered in that locality. It is said that J. W. Manwill and George Schougaard of Koosharem, who have spent considerable time in prospecting in the mouth of Greenwich canyon, adjacent to the Indian villages of Grass Valley, in Sevier county, have discovered a new bed of saltpeter. They have prospected the canyon to considerable extent and know pretty thoroughly where all the best deposits are located. Two years ago they discovered the first salpeter bed there and held it for some time, Last spring L. H. Outzen of Richfield inspected the property and decided to take it over. He secured an option and has since purounty, that is believed to be a highe: cured an option and has since pur-chased it.

chased it.

The new body of salpeter was found by Manwill and schougaard close to the mouth of the canyon. It is about 500 feet wide and the depth has not been determined as no work has been done. Samples have been brought to Salt Lake to be tested and it is the belief of the discoverers that the find will be much richer than that which they disposed of early this year.

It has been known for a number of years that Grass Valley has had a number of yeins of saltpeter but no one has taken the trouble to investigate them to any extent. them to any extent.

H. W. Doscher, a local broker, has sailed from Bremen for home. There are a number of rumors from Mercur that the Old West Dip property is preparing to start up again.

CONCENTRATES.

Manager Grant Snyder of the Cliff Mining company reports that the sec-ond chute of ore has been encountered in the middle tunnel.

The big flood that occurred at Ophir a week ago changed the course of the creek bed and caused a shut down of the Ophir Hill mills for a short time. The Silver Eagle mine at Stockton is now about ready to ship a good car of ore to the market. It is reported that from now on the company intends to ship regularly.

Considerable pumping is being done at the Ophir Hill mine, owned by Senat the Opin Film India, on the dispersion of W. A. Clark. A good sized stream of water is flowing down the main street at Ophir from the mine.

The mines of Butte are reported to be now running at their normal capacity, the first time in several years. The district is producing copper at the rate of 28,000,000 to 30,000,000 pounds per

It is reported that the leasers of the Honorine property at Stockton are get-ting out some fine ore. Several car loads of ore are out for shipment and be sent to the market within a short time.

According to Manager S. S. Pond of the Cedar-Tallsman property, the chute of ore encountered on the 400 foot level of ore encountered on the 400 foot level is opening into an immense body of shipping ore. The power drills are now at work on the 500 level, drifting to get under the ore found above. Zinc ore which is found in the Talisman property of the company, is being shipped.

Manager A. N. Holdaway declares that the Tintic Central company expects no trouble from water after it has succeeded in getting through the porphyry. The lime he declares is dry underneath the porphyry. At present from 18 to 25 60-gallon buckets are hoisted each day, with no indication that the flow is increasing. Sinking will continue.

Dr. Benzo Katsuro, professor of metallurgy in the Imperial university at Tokio, has been in this country for several months investigating the methods in vogue in the treatment of ore. Dr. Katsuro is one of the highest authorities in this country on the subject thorities in this country on the subject of metallurgy. He has been examining the smelters here as well as the Bingham mines and the cyanide mills at

Mr. and Mrs. B. G. Thatcher left at noon today on the Los Angeles Limited, bound for their field of labor in Hol-iand. A large number of relatives and friends assembled at the deput to bid them godspeed.

Dr. Ralph T. Richards has returned to Salt Lake, after an absence of several months spent in Europe in following several lines of special studies.

A. O. Treganza has returned from San Diego, where his wife has been seriously ill. Unless she grows stronger, he may have to return in a few days.

Walt for the big I X L auction sale commencing September 7 at 10 a.m.

WILL SELECT QUARTERS.

Gov. William Spry is expected home this evening at 9 o'clock and tomorrow this evening at 9 octock and tomorrow a meeting of the juvenile court commission will be held when the question of quarters will be settled. The governor will decide upon the merits of three locations in city office buildings upon which options have been obtained.

LATE LOCALS

Six New Cottages-A. B. Hirth, city bullding inspector, this morning issued permits to Zison's Co-operative Building and Real Eestate company for six five room brick cottages at 223, 225, 227, 237, 241 and 245 Modern Place. They will cost \$2,300 each or \$13,800 in all.

W. C. Spence Returns-W. C. Spence was at his desk this morning at the President's office, after an absence of three weeks at Long Beach, California.

Ruins in Northern Arizona.—An er-ror in the heading of the article deal-ing with recent archaeological discoveries which formed a part of Satur-day's "News" stated the finds to have been made in northern New Mexico. The body of the article gave them as being in Northrn Arizona, which is correct.

Midshipmen Coming Home—Midshipmen Scott Lynn and R. C. Lee of this city will be home from the U. S. warship Chicago for a month's visit.

A REASONABLE PROFIT.

Pressed Steel Car Co. Employes Say Do Not Get Theirs Under Tariff.

Washington, Aug. 29.-That laborers washington, Aug. 29.—Inat laborers employed by the Pressed Steel Car company at McKees Rocks, Pa., the scene of the present strike, are not paid the share to which they are entitled under the protective tariff system, is assertedy by Secy. Morrison, of the American Federation of Labor, in autotopear med today. The abstract in a statement made today. The charge is embodied in a request forwarded by Mr. Morrison to Secy. Nagel for an investigation.

Mr. Morrison to Secy. Nagel for an investigation.

Mr. Morrison takes the position that as the company is enabled by the protective system to charge much higher prices, the government should make an inquiry. The request is based upon sec. 8 of the act of Feb. 14, 1903, which requires the secretary of commerce and labor to make special investigations, either upon the request of the president or of either house of Congress, or mon his own initiative.

Pointing out that the strikers are aliens and not members of any labor organization. Mr. Morrison declares that their wages have been "reduced by offcers of the Pressed Steel Car company to the extent that, in sheer desperation, they decided to cease desperation, they decided to cease work until their many grievauces, which they could no longer bear, were remedied and a higher wage rate was

remedied and a higher wage rate was paid."

Mr. Morrison takes the position that the rioting and needless sacrifice of human life should not be permitted to divert attention from the fact that these regretable incidents are "the direct result of the unbearable and unbelievable conditions that have been forced upon these defenseless and helpless wage workers."

AUTOMOBILIST KILLED.

Des Moines, Ia., Aug. 30,-Mr. and Mrs. Charles A. Coppersmith of New-ton were killed near Newton, Ia., 20 miles east of here, early today, when their motor car went down a 30-foot embankment.

PRODUCE.

CHICAGO.

Chicago, Aug. 20.—Enormous shipments of wheat from Russia during last week were the chief topic under discussion at the opening of the wheat market today and the liberal movement prompted heavy selling here which caused initial declines of '4.0'% to 1½c. The total movement from Russia and Danulan ports last week was more than 50 per cent of the world's total movement, being estimated at nearly 5,000,000 bushels. Prices showed little inclination to rally early in the session. Opening quotations on September were 37% to 97% and on December 33¼ to ½. Later September touched 28 and December 33½, 3%. The break in wheat inspired consid-

33%.

The break in wheat inspired considerable selling of corn carly in the day. September opened unchanged to 14c. lower, at 65 to 65½ and declined to 64%.

Oats were weak in sympathy with wheat and corn. September opened 1½ to 14c. lower, at 35% to 36½, and for a time held within the opening range.

Provisions were inclined to be weak owing to liberal receipts of live hogs at all western packing centers. Opening prices were 7½c. higher to 7½c. lower.

Wheat—Prices continued to sag throughout the day, the market being bearishly affected by a talk of big prospective movement from the northwest. For September the low point of the session was reached at 97½. December declined to 92%. The market closed weak, with September off 161½c. at 97% 6½; December was down ½c. at 93%.

Corn—The market was rather weak all day. The bottom for September was reached at 64½. The close was easy, with September off ½c, at 64%.

Close—Wheat—Sept., 97% 6½; Dec., 33%; May, 97½.

Corn—Sept., 64%; Dec., 55%; May, 56% (957).
